

FireStop 400 - Fire rated sealant

Area of Application

FireStop 400 is primarily intended for use in different fire sealing applications indoors, for example, as an option to silicone based products in FireSeal's fire sealing system FS-Flex D and FS-Universal. FireStop 400 is also approved as a sealant around electrical conduit of PVC plastic and for Pex pipes.

Description

FireStop 400 is a water based acrylic sealant with intumescent properties. It cures to a semi-flexible seal and prevents the penetra-

tion of fire, smoke, gas and water. FireStop 400 is also included in fire sealing systems FS-Universal and FS-Flex D. Uncured material can be removed using a damp cloth. Cured material is removed mechanically. More information and safety data sheet available on essve.com

Approval

FireStop 400 is registered in the BASTA register. BASTA registration means that we can prove that this building product is in compliance with agreed criteria concerning environmental and health properties. See .
