

FireStop 1000 - Flexible, fire rated sealant

Area of Application

FireStop 1000 is designed for fire rated sealing between different interior and exterior design elements, for example expansion and connection joints, joints between walls and the floor or walls and door and window openings as well as traditional facade joints.

Description

FireStop 1000 is a fire-rated single component silicone especially designed for sealing

between structural elements of steel, concrete, wood, drywall or aluminium in different combinations. Noise reduction coefficient: 60 dB.

Contents:

- FireStop 1000 silicone
- Non-combustible mineral wool
- Backer rod made of polythene in some cases.
