

Roof sealant - Repair sealant for roofs and foundations

Area of application

- Outdoor use
- Repairs and bonding
- Seals penetrations in the roof/foundation
- Roofing felt and sheet etc.
- Easy to work with
- Dries quickly

Description

Versatile, repair and adhesive sealant based on asphalt and reinforced with fibre glass. Perfect to bond or repair felt and sheet metal roofing. Excellent to lay around the chimney or penetrations on both the roof or the foundation. The consistency of the sealant means it to easily fill even a slightly larger gaps. Ideal for

filling cracks and holes and forms a completely waterproof joint. An all-round sealant for roofs and foundations that can be used all year round in almost any weather, regardless wet and cold. Uncured sealant is cleaned using ESSVE cleaning spray.

- Asphalt based roofing compound (bitumen)
- Glass fibre reinforced
- Can be sprayed or trowelled
- Adheres to damp surfaces
- Completely waterproof
- Working temperature +0- 30°C
- Paintable, risk of bleeding
