

## ESSBOX case

- The case can withstand rough handling and resists both rain and snow.
- The case lid has a padded foam interior, that moulds to the boxes and seals tight. It prevents the contents spilling from the packages, irrespective of whether the lid is fitted.
- The octagonal pattern in the bottom of the case keeps the boxes in place even if the case is not fully loaded.

- A fully packed case can weigh up to 15 kg. To cope with the weight the case has a sturdy and durable handle and a sturdy lock.
- The cases are stackable.
- Meets IP 43 requirements
- Made of 100% ABS
- Recyclable
- Smart storage solutions for cars are available as accessories
