

### Area of Application

ESSVE Particleboard screws are intended for the installation of against particle-, panel-, plywood- or flooring grade chipboard indoors against wooden joists.

### Description

The screw is straight collated and manufactured of hardened carbon steel with bright zinc plated surface treatment. Fitted with Philips crosshead Ph2. The head is equipped with 4 cutting grooves

that countersinks the screw, leaving a smooth surface without splinters.

ESSVE Particleboard screw are suitable for the most common auto-feed screwdrivers available on the market.

### Installation

Machined bits are recommended when fitting collated particleboard screws.

Recommended rpm: 30-55 mm 2800-4700/ min.

### Specification

Material	Hardened steel SAE1018
Surface treatment	Bright zinc plated 5 µm
Usage	Approx 20 per m <sup>2</sup>
Corrosion categories	C1

### Particleboard screw for wooden joists, bright zinc plated
