

Area of Application

ESSVE Hard Drywall screw designed for the installation of hard drywall boards indoors, against wood or steel joists. Drill capacity 0.4-0.9 mm.

Description

The screw is straight collated and manufactured of hardened carbon steel with phosphated surface treatment. It is equipped with Philips crosshead Ph2.

Specification

Material	Hardened steel SAE1018
Surface treatment	Phosphated
Usage	Approx 20 per m ²
Corrosion categories	C1

The screw has a reverse thread under the head which presses the sheet material tightly against the joist.

ESSVE Hard Drywall screws are suitable for the most common auto-feed screwdrivers available on the market

Installation

Machined bits are recommended when fitting collated hard drywall screws.

Recommended rpm: 2000-2800/min

Hard Drywall screw for wooden and steel joists, phosphated
